Delivery Results

Simple evaluation of new Patients giving assent (single BHR neurology clinic) post implementation of new pathway

What % of patients were asked about research in a neurology clinic

- Number of patients recorded on PAS as being asked about research: 37%
- Number of patients NOT recorded on PAS as being asked about research: 63%

From those patients asked, what % were recorded as giving assent: Nov 12 - Jan 13

- Number of patients recorded on PAS as giving consent: 30%
- Number of patients recorded on PAS as NOT giving consent: 70%

TARGET IS 50 %

NT1 – February 2013

N.B. This project was first delivered in 2012 by the then Dementias and Neurodegenerative Diseases Research Network (Dendron).
