72%

Recruitment 1st April 2011 – 31st March 2012

DeNDRoN Accruals – a year on year comparison

Top level – support

Prime Minister's Challenge on Dementia

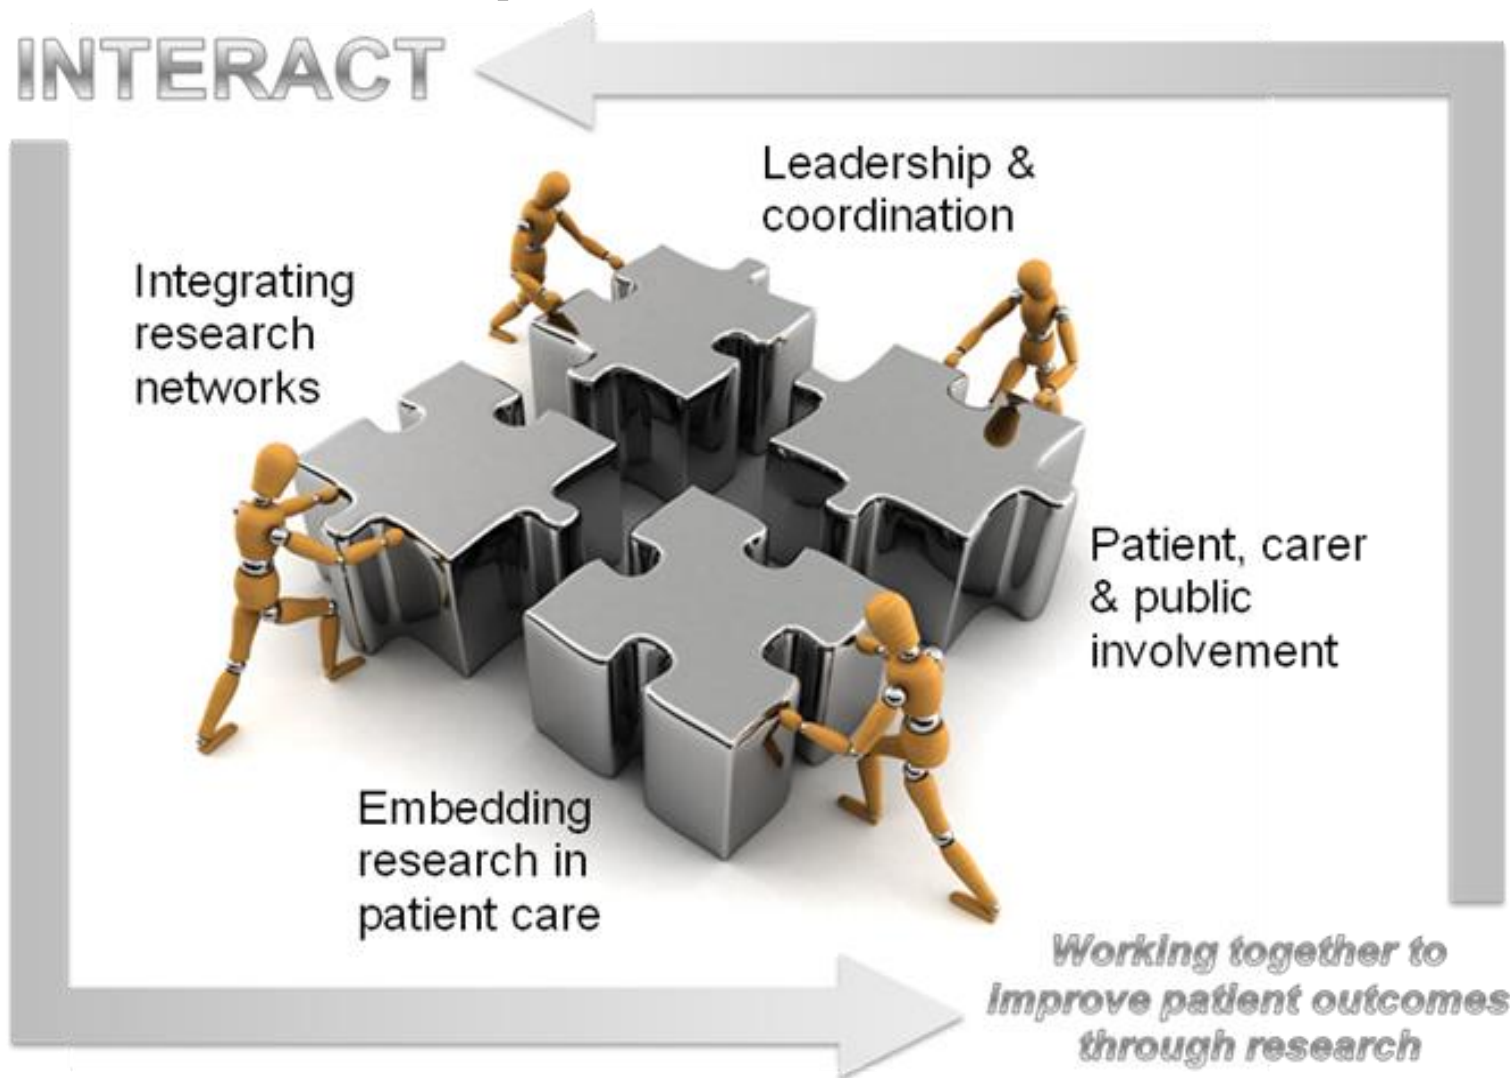

5th December 2011

10% of patients with dementia will be recruited into trials by 2015

How many people have dementia?

Where are they – how can we contact them?

Integrating NeTworks and Embedding ReseArch in Clinical practice - INTERACT

Integrating research into care

- **Induction –**
- **Appraisals –**
- **Training –**
- **Trust strategy –**
- **Dementia Academy –**
- **‘Admission’ packs –**
- **Quality measures –**
- **‘Research Active trust’ –**
- **Registers –**
- **Communications strategy –**

Integrating research into care

- **Induction** – research is everyone’s business
- **Appraisals** – demonstrable evidence of research activity
- **Training** – research career development
- **Trust strategy** – enabling patients to be trial participants
- **Dementia Academy** – developing research locally
- **‘Admission’ packs** – include prospective consent info
- **Quality measures** – Accredited Memory Clinics
- **‘Research Active trust’** – culture change across all staff
- **Registers** – prospective consent and minimum data set
- **Communications strategy** – how do we get people to do what we need them to do?

We support

The development , set up and delivery of research:

- Facilitate the writing of high quality grant applications and provide expert advise
- Site selection and feasibility assessment
- Engagement with research funders
- Active involvement of patients and carers
- Coordination of activities across other topic networks
- Coordinate governance processes and facilitate study set up;
- Recruit participants;
- Undertake investigations, assessments and tests
- Collection of research performance management data.

Thank You
