

**Online toolkit link**

The online toolkit at [www.ntdendrontoolkit.weebly.com](http://www.ntdendrontoolkit.weebly.com) includes the following tools:

- Staff information leaflet
- Information for clinicians
- Induction video
- Research webpage for a hospital
- Patient leaflet
- E-learning package for junior doctors
- A clinical capability checklist and an operational capability checklist to assess your readiness for DeNDRoN research
- Benefits of research to an organisation
- Benefits of research to patients
- Research support available
- How to get started on DeNDRoN research

Below is an extract showing the **Home page** of the online toolkit:

Below is an extract from the website showing the **Developing a research culture** page

This offers access to a variety of tools that have been developed and tested during 2012.

The online 'site engagement toolkit' provides practical, adaptable tools to develop a research culture:

- Staff induction video and script, for local adaption
- Example of a website research page, for local adaption
- Staff information leaflet on research
- Leaflet insert with FAQs about research by clinicians
- Expression of interest in research form
- Readiness for Research checklist
- Staff competency for research checklist
- Online access to GCP training

### 1. Staff information leaflet

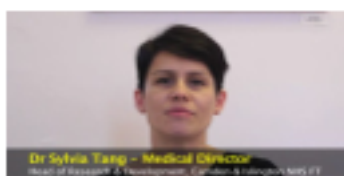

[Click here to download](#)

### 2. FAQs for clinicians

[Click here to download](#)

### 3. Staff induction videos

This is being used in staff inductions, SpR training and core junior doctor inductions. [Click here to view the top tips and script template](#) that you can adapt for use in your organisation.

### 4. Case study

The **case study** is an interim report on how North Thames DeNDRoN has

been working with Camden & Islington NHS FT and other local organisations and research networks, to embed a research culture. The full report will be available in the Autumn 2012

### 5. Business case for DeNDRoN research

Here is a blank template, a completed template for your adaption is being developed.

### 6. E-learning package for junior doctors

Here are an e-learning package suitable for

junior doctors

### 7. Research webpage on hospital's public website

NT DeNDRoN has worked with Camden & Islington NHS FT

and other research networks to develop a comprehensive [webpage](#) that went 'live' in September 12

### 8. Patient leaflet

Barking, Havering and Redbridge University Hospitals  
NHS Trust

**Taking part in research**

Information for patients

Download this helpful patient information leaflet developed for Barking, Havering and Redbridge NHS Trust that includes information about research and provides a reply slip if patients want to record their interest in receiving
