HELP PARKINSON'S RESEARCH

Do you have Parkinson's or a Parkinson plus syndrome?

The NHS is committed to supporting Parkinson's research. We are dependent upon patients volunteering their help to improve work in this area. If you can help, please complete this form and return it to your DeNDRoN research office: *Thames Valley Dementias and Neurodegenerative Diseases Research Network (DeNDRoN), Room 4401D, Level 4, John Radcliffe Main Hospital, Headley Way, Oxford OX3 9DU.*

My neurological diagnosis is (please tick 1 box):

Parkinson's (PD)

Multiple System Atrophy (MSA)

Progressive Supranuclear Palsy (PSP)

Corticobasal Degeneration (CBD)

Other, please specify:

.....
.....

Year of this diagnosis.....

Consultant looking after your parkinsonism: Dr.....

Hospital:.....

I would like to hear about research opportunities in which I could take part, and consent to research team members contacting me in future regarding this. I am happy for my hospital notes to be looked at by members of the research team, who may not normally have access to this material, but are bound by the same duty of confidentiality as the clinical care team, to gather more information if needed. I understand that I can withdraw from this research database in the future at any time without having to give a reason.

(Affix hospital label here if available and **sign below**): Telephone.....

NameDob.....

Address
